Need fresh insights into **the devastating experience of Betrayal-Related Grief (BRG)**—or more specifically, what to do with it when it hits? Expanding beyond the model created by Elisabeth Kübler-Ross, this 2-hour interactive workshop will (a) introduce some lesser-known constructs to identify, reframe and respond to traumatic grief, (b) **explore the relevance of mourning in clients who present with addiction, trauma and/or both**, and (c) identify ways that grief and mourning can happen compassionately, constructively and concurrently, all within the context of relationships healing from the tectonic impact of betrayal.

THURSDAY, NOVEMBER 21st, 7–9PM ET

- Online (onscreen), live via Zoom
- Registration: \$100
- Limited scholarship support available.
- To register, email gaelynrae@womeneverafter.com

Empower yourself to companion your clients through the loss of “what used to be” and “what might have been.”
